

RUSTIC ASHLAR COPPER CANYON

Foundation Series

Photo Shows Installation With Mortar Joint

DESCRIPTION

Rustic Ashlar Copper Canyon is a small to medium sized ashlar style stone. It has both square and rectangular pieces with colors in the light to medium brown range with some dark browns intermixed. It is typically installed with a mortar joint, but it may be installed in a dry-stacked style with additional cutting and fitting.

PACKAGING DETAILS

CRATES

Flats: 100 Square Feet

Corners: 65 Lineal Feet

SMALL BOXES

Flats: 8 Square Feet

Corners: 6 Lineal Feet

All sizes are approximate and may vary depending on availability of raw material. A small percentage of Copper Canyon products have naturally occurring veins and fractures in the stones. These veins and fractures typically do not cause problems after installation, but they are weak points in the stones which may be susceptible to stress cracking under certain conditions.
